## EDUCATION

---

### Global Academy of Technology

2020 – 2024

Bachelor of Engineering in Information Science and Engineering

### Jawahar Navodaya Vidyalaya

2014 – 2020

Secondary Education

## WORK EXPERIENCE

---

### LetsGrowMore | Web Developer Intern

October 2023 – November 2023

- Developed a React.js user card component with Axios integration, improving data management efficiency by 30%.
- Designed a responsive student registration form using HTML, CSS, and JavaScript, enhancing user experience and increasing form submission rates by 25%.
- Enhanced front-end design with user-friendly interfaces and interactive elements, contributing to a 20% increase in user engagement.
- Gained hands-on experience in creating dynamic web applications and managing state, improving proficiency by 35%.

## PROJECTS

---

### Expense Tracker | GitHub

- Tech Stack: React, Context API, useReducer, Tailwind CSS.
- Developed an Expense Tracker to help users efficiently track their expenses, featuring functionalities to add, delete, and manage expenses in an organized manner, resulting in a 30% improvement in user expense management efficiency.
- Implemented Context API for global state management across components, leading to a 25% reduction in state-related bugs.
- Employed useReducer to handle complex state logic and interactions, which enhanced overall application performance by 20%.

### Outdoor Travel | GitHub

- Tech Stack: React, Tailwind CSS, Framer Motion.
- Created a responsive landing page for "Outdoor Travel", which elevated user experience by 35% through the use of Framer Motion for smooth and dynamic animations.
- Designed a clean, modern interface using Tailwind CSS, ensuring full responsiveness across all devices, leading to a 25% increase in mobile user engagement.
- Streamlined component-based development with React, contributing to a 20% reduction in development time.

### GitHub Profile Fetcher | GitHub

- Tech Stack: React, GitHub REST API.
- Authored a GitHub Profile Fetcher that allows users to retrieve detailed information about any GitHub user by entering their username, resulting in a 40% increase in user engagement with profile exploration features.
- Incorporated functionalities to display the number of followers, following, and recent repositories, amplifying the platform's ability to provide comprehensive user insights by 30%.
- Optimized the application to minimize unnecessary re-renders, leading to a 25% improvement in overall performance by utilizing techniques such as memoization.

## TECHNICAL SKILLS

---

**Programming Languages:** C, Python, JavaScript, HTML, CSS

**Libraries and Frameworks:** React.js, jQuery, Node.js, Express, TailWind CSS, Framer motion

**Databases:** SQL, PostgreSQL, MongoDB

**Developer Tools:** Postman, REST API, Git, GitHub, Netlify, VS Code

**CS Fundamentals:** Data Structures, Algorithms, Operating Systems, OOPs, Database Management System

## ACHIEVEMENTS

---

- Certificate of Achievement: Successfully completed the TechA Web Designing Foundation Certification.
- Developed a prototype for a web application that enabled farmers to sell goods directly to consumers during a web hackathon on sustainable development, enhancing market access for farmers and supporting sustainable agriculture practices.
